

MAURO EXEQUIEL BUSTOS ROLDAN

Web Developer

About me

I am an advanced Computer Engineer student with an interest in development and new technologies. Over the past two years, I have gained valuable experience as a junior full-stack developer, working on various projects that have strengthened my skills in both front-end and back-end development. I am eager to continue learning and growing in the field, and I am always looking for opportunities to apply my knowledge in real-world scenarios.
